

Do you even know  
what's what  
anymore?

First this way,  
then that way.

Expect nothing,  
be prepared for  
anything.

Do nothing. It  
is easier that  
way, but then  
you're not going  
to get anywhere.

Just keep  
reading.  
Eventually  
you will  
get there.

Forwards or  
backwards, it  
may or may  
not matter.

How did it get  
this way? Can  
you even know?

Now what?

Do you  
have an  
idea in  
mind already?

Shouldn't  
you?

???

You can cope  
with the  
unexpected.

Then you can  
make plans,  
and set goals.

Sometimes it is  
good to know  
what to expect  
before you  
begin.

Sometimes you will find that when things are  
easy to understand, you will just carry on as

if on autopilot. You won't even need to think  
much, let alone actually notice anything.

By now, you  
really should  
have a clue.

What if nothing goes according to plan?

What if the rules change?

What if Everything is straightforward and smooth sailing?

Wouldn't that be dull? Or is it comfortable sailing?

It wasn't meant to go quite like this, but it might work anyway. Try it. *K.K. Kitchen, Inc. can*

IT ALL STARTS HERE

It would be strange and disconcerting if the rules were to change while you were engaged in an activity. At first, you might not even notice.

What is really going on, though?

By now you know things are not what you thought.

Keep going. You're doing just fine!

That's just how it is. But is that how it always was?

Everything seems according to plan.

At first you won't notice that anything is different.

Perhaps you think you should read this page first.

Maybe this is where you begin?
